Executive Reg. 1-2795A

Office Memorandum • UNITED STATES GOVERNMENT

TO : Executive

DATE: 20 October 1950

FROM : Management Officer

SUBJECT: Table of Organization, Inspection and Security Staff.

1. The attached request, dated 2 October 1950, from the Chief, Inspection and Security Staff, for a revision of the Inspection and Security Staff table of organization has been reviewed by this Staff.

2. The functions of the Security Control Staff are to develop broad security policies for internal operation of the Agency and for relationships with other agencies and also to conduct activities relating to Alien Affairs, Counter Intelligence and Polygraph Testing. The security policy aspects of the Security Control Staff are overt in nature and logically could be placed in the Security Division as requested by the Chief, Inspection and Security Staff. The Polygraph activities performed in [REDACTED] and by the Special Assistant in the present Security Control Staff and the activities conducted in Alien Affairs, although organizationally shown under the Security Control Staff, are conducted under the immediate supervision of the Chief, Inspection and Security Staff. Because of the specialized nature of these activities it is desirable that they remain under the direct supervision of the Chief, Inspection and Security Staff, and be so shown organizationally.

25X1A

3. The changes in organization requested do not involve any change in the number of positions or funds requirements for the Inspection and Security Staff. Tentative grades for positions affected by the proposed organizational change have been agreed to by the Inspection and Security Staff. It is recommended that the changes as proposed by the Chief, Inspection and Security Staff, be approved.
